Good evening Tommy,  
Just wondering who on the Board you will or have been speaking to? It seems to me that if you leave this decision up to Torrance or David, it is a conflict of interest. Also, as inspector of elections, don't you make the rules regarding our election? It seems to me that the sitting Board would be biased at this point against having the election after all.

Thank you for the email on the 6th as well. No worries about being late and I'm glad that we were able to meet up after all.  
Thank you.

I have been instructed that the Board needs to meet and discuss this situation and will advise me on their decision.

I will update you as soon as I hear anything further.

Thanks for your understanding.
